

LOGIQ™ P Series

Make it easy. Make it your own.

INTERVENTIONAL IMAGING

Clinicians depend on ultrasound to help guide needles and ablation devices, localize anatomy and pathology, and monitor procedures. The budget-friendly LOGIQ P Series provides exceptional image quality and workflow efficiency to support confident interventions.

MSK B-Steer+, 12L-RS

Wrist injection, L8-18i-RS

Patient-Centric Diagnosis

- **Superb Image Quality** – Choose from a range of XDclear™ high-performance probes, delivering high-quality images across a wide range of clinical scenarios.
- **Contrast Enhanced Ultrasound (CEUS)** – Provides visualization for pre- and post-ablation assessment of lesion vascularity or residual tumor.
- **Enhanced B-Steer+** – Enhances needle visualization in real-time to improve speed and confidence in needle guidance procedures, with dynamic FOV, needle recognition, and up to eight selectable steering angles.

Personalized Workflow

- **Touch Control** – Zoom, magnify, and freeze images on the touch panel with your fingertips, even when gloved.
- **Remote Control App** – Operate the system from an Android™ phone or tablet.
- **Photo Assistant App** – Acquire and send photos of relevant anatomy from an Android device for documentation and comparison after a procedure.
- **My Preset** – Customize your own use case presets, and then launch these settings with a single touch.
- **Button Probe** – Easily control system parameters from the probe without accessing the touch panel and breaking the sterile field.

- **Auto Lesion Segmentation** – This AI-based tool automatically traces lesion boundaries and generates two-dimensional measurements with just a few keystrokes.
- **Volume Navigation Import** – Easily view a prior ultrasound, mammography, CT or MR image and current images side-by-side in real time via a split screen on the monitor.
- **Excellent Transportability** – With a trim, lightweight design, the systems are easy to maneuver and fit into crowded suites.
- **Power Assistant with Extended Battery** – Enables up to one hour of offline scanning.

Powerful Support

The LOGIQ P Series gives you access to industry-leading cybersecurity, data management, and educational resources to help you optimize system uptime and utilization, while enhancing user skills.

Product may not be available in all countries and regions. Full product technical specification is available upon request. Contact a GE Healthcare Representative for more information. Please visit www.gehealthcare.com/promotional-locations.
